

IMPORTANT INFORMATION

IMPORTANT! Read this information before proceeding. It is the user's responsibility to take the following precautions at all times.

- Always stake or weight down your QUEST™ Canopy. Do not use in any potentially windy or rainy weather. Wind and rain can damage your QUEST™ Canopy and may also result in injury to you or others. Therefore, do not rely on canopy for protection in heavy or prolonged rain storms.
- The QUEST™ Canopy is designed as a temporary sun canopy. Do not leave up for extended periods.
- Use caution when handling the QUEST™ Canopy frame. Avoid pinching hands or fingers as frame opens or closes.
- Do not use canopy in a lightning storm.
- Do not leave your QUEST™ Canopy product unattended.
- Do not build fires under canopy.

WARNING: Keep all flame and heat sources away from the top fabric. This fabric meets the flammability requirements of CPAI-84. The fabric may burn if left in continuous contact with any flame source. The application of any foreign substance to the fabric may render the flame-resistant properties ineffective.

CARE AND MAINTENANCE

For long lasting durability and the best possible protection for your Quest™ Canopy product, follow these care and maintenance instructions:

- Use a mild soap (not detergent) and plenty of water for top cleaning.
- Let the Quest™ top and frame dry completely before closing or storing to avoid mildew.
- Frame will operate and look better if occasionally wiped with silicone spray, especially before and after use in damp conditions. Remove excess silicone residue before attaching top.
- Use a seam sealer if top leaks or drips water. Available at most sporting goods and hardware stores.
- Slightly tighten bolts if frame becomes loose.
